Inclusion Programme

Welcome

Welcome to the new Inclusion & Locality Working bulletin.

We've put together a new bulletin to keep you in the loop on the latest developments related to our Inclusion Programme. This will include updates and information about locality working, the SEND reforms, as well as our transformation work on emotional health and wellbeing and inclusion. Each month we will send you top stories and useful links - and you are invited to contribute articles of your own.

In this month's issue we cover:

- The Vision for Inclusion
- Locality Working
- The SEND Code of Practice and the Duty to Admit
- The Sheffield Support Grid
- The new Health Single Point of Access (SPA)

We also have pages on Learn Sheffield's website where you will find further useful documents:

- [Inclusion Programme Board](#)
- [Inclusion Programme Document Store](#)

We will be updating these pages in the coming weeks, so we'd recommend bookmarking them in your browser!

Last, but not least, we want this bulletin to be as useful as possible to you, so if you have any feedback, please [complete the survey](#) when you've finished reading.

The Vision for Inclusion

A common understanding of what we are trying to achieve through this programme of work is central to its success. In the past few months, the multi-agency Inclusion Programme Board has been developing the 0-25 vision for the programme, following the early strategy statements that were presented to the schools forum last year. The article below provides an overview of the vision which was presented to the May board. The board is continuing to refine the vision and the final document will be made available to all partners.

Locality Working

A key part of the Inclusion Programme is locality working. Over the past year, we have been moving to a more integrated form of locality working. The article below provides an update on the latest developments in locality working, the second link contains the slides which will be presented at the School Forum on the 23rd June.

The SEND Code of Practice and the Duty to Admit

Each month, we will bring you an article which explains a different part of the SEND Code of Practice. This month, we focus on the Duty to Admit for educational settings named in an EHC Plan. Our article is a response to a number of queries we've received on this topic.

The Sheffield Support Grid

The Sheffield Support Grid is a key part of our new ways of working. This article outlines how the Sheffield Support Grid works and the next steps anticipated for its development. Please note, that you can download a copy of the Sheffield Support Grid in the Useful Links section at the bottom of this bulletin.

- [How schools are using the Sheffield Support Grid to meet needs](#)

The new Health Single Point of Access (SPA)

The new Health Single Point of Access has been set up to facilitate communication between the SEND team at Sheffield City Council and the NHS.
