The changing picture of Special Educational Needs and Disability in Sheffield

Sheffield faces many challenges in ensuring that all children and young people with SEND receive the right support at the right time. Across the city leaders from education, health and care are committed to working in partnership to address these challenges. We invite you to join our leaders' conference as we look together at the changes we need and are putting in place.

Our day will have input from national organisations and experts as well as a chance to discuss how we can work together to change support across the city and how you can influence this.
