# The summer term 2020

## Moving to remote governance

# Governing through COVID

- Maintaining contact and supportive messages to senior leaders: *but how are you?*
- Moving to virtual meetings
- Review priorities in light of the current circumstances
  - Taking a pragmatic view of what the priorities are
- Identifying the urgent business & key decisions that support your school leaders
  - How to do that other business remotely eg senior leader recruitment
  - Changes to committee structures including in multi academy trusts
- Testing risk assessments

## Issues raised with NGA last term

- **Chairing & governing virtually** – skills for the future
- **Decision-making pressure** – using chairs action while keeping the full board engaged
- **Chairs' workload** – many discussions to be involved in is time consuming
- **Liability concerns** – seriousness of employer responsibilities
- **Volume of guidance** – concern for burden on chief executive & other leaders
- **Supporting executive leaders** – looking out for wellbeing while maintaining objectivity
- **Local governance** – reinstatement or changes, clarity of accountability
- **Vision and culture** – being inclusive and ambitious; timing of revisiting strategy
- **Risk assessments** – appropriate level of detail; government vs local advice; 360 degrees
- **Engaging with local authorities & public health**
- **Stakeholder engagement** – stronger communications with anxious communities

# Governing in unprecedented times

---

This report presents findings of a small-scale research project to investigate the challenges for school governance during the COVID-19 (coronavirus) pandemic. The research was carried out with the National Governance Association (NGA) and sought to understand the decisions and actions of governors and trustees in response to the short- and longer-term challenges presented by lockdown measures in England.
