

Effective Learning Behaviours

This session is part of the Research Led Sheffield programme delivered by Huntington Research School

Effective learning behaviours have emerged from the rich and diverse base represented in the EEF guidance reports on improving behaviour, metacognition and self-regulation, special educational needs in mainstream schools, working with parents, and social and emotional learning.

Successful learning behaviours rely on layering all these areas to wrap around every child in our schools.

Each part of a puzzle which makes best sense when all parts click together, building long term protective factors for deeper learning.

Aims of the programme:

- Explore the evidence base in particular around social and emotional learning and improving behaviour
- Identify the areas that you intend to focus on in order to improve your own school culture around learning behaviours
- Monitor and evaluate the impact of your own implementation plan in order to ensure it is as effective as possible

The following five live sessions will be delivered via Zoom:

Launch W/C 19/04/21

- **Session 1:** 28/04/21, 2.00 - 4.00pm
- **Session 2:** 12/05/21, 2.00 - 4.00pm
- **Session 3:** 15/06/21, 2.00 - 4.00pm
- **Session 4:** 30/06/21, 2.00 - 4.00pm
- **Session 5:** 14/07/21, 2.00 - 4.00pm

[Book all 5 sessions here](#)

In addition to attending these live sessions there is an expectation that participants will engage in an asynchronous launch and four intersessional tasks. There will also be the opportunity for optional follow-on support. The success of the programme is as dependent on the intersessional activities as it is on the live sessions. Therefore we recommend participants calendar 90 minutes between the live dates in order to engage with these tasks successfully. Booking on the first session enrolls you for the whole programme. **The cost is £295 +VAT (per place) - please note this programme is separate to your subscription and the cost applies to all schools.**
